John Wiley and Sons Ltd, United Kingdom, 2009. Hardback. Book Condition: New. New. 230 x 152 mm. Language: English . Brand New Book. This book provides an as yet unavailable tool, the Stakeholder Balance Sheet, enabling managers within any organisation to unlock the DNA of the market place in which they operate and to measure their effectiveness in understanding their markets and all the key stakeholders operating within them. This simple tool provides self-testing checklists at the end of each chapter that enables managers to look at stakeholder-sensitive issues in the same way that they might scrutinise financial statements (hence it will not seem alien to most managers). A review of how well your organisation has fared on the questions will tell you how healthy your balance sheet is in relation to the topic of each chapter, and it will provide you with the basis for an overall enterprise balance sheet that aggregates the scores you have achieved in each topic area. For the purpose of the book, stakeholders are described as: the direct stakeholders in the market place - customers and prospects (including both the key contacts with whom you interface and others who may influence the final decisions made); the internal stakeholders - staff; other...
