

Annals of the Astronomical Observatory of Harvard College Volume 73, No. 1 (Paperback)

By Harvard College Observatory

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1914 Excerpt: .location is unfavorable on account of the small percentage of recovery. Of the three ascensions in 1909 only was one attended with the return of the meteorograph. In 1911 there were 5 pilot balloon ascensions, the maximum elevation being 8360 metres (27,430 feet). In 1912 there was 1 ascension, the maximum height being 4620 metres (15,160 feet.) There were none in 1913 and 1914. The Local Weather Forecasts.--Local weather forecasts are made daily from the synoptic reports of the United States Weather Bureau and from the local observations. A red flag, indicating that precipitation is to be expected within twenty-four hours, is displayed on the tower of the Observatory for the benefit of the public. It is estimated that the flag may be seen under favorable atmospheric conditions by 35,000 people who reside or travel within a four-mile radius of Blue Hill. Information regarding the probable...

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Otis Wisoky**

This publication is great. It is full of wisdom and knowledge You will not really feel monotony at any time of the time (that's what catalogs are for relating to when you ask me).

-- **Dr. Everett Dicki DDS**
